

## Loadmaster Industrial Wheelbarrow

**SKU:** 1370036

The tray on the Loadmaster wheelbarrow is a huge 110L! Weighing in at 29kg means it is super heavy-duty, ideal for your site. The clever design and geometry make big loads easier to lift, while maintaining structural integrity.

### Benefits:

- Easy Pushing
- Bigger load - Lighter lift
- No Rust Frame
- Superior Balance and Control

## PRODUCT DESCRIPTION

The Loadmaster effortlessly handles large loads quickly, transforming efficiency at your worksite. Consistently outperforms the competition, every single day.

### Anti-Corrosion Galvanized Frame

Constructed with a heavy-duty steel gauge and galvanized both internally and externally, the Loadmaster is supremely equipped to resist rust and corrosion.

### **Broad Wheel for Varied Terrain**

Featuring a wide steel rim and a tire designed for heavy-duty treading, the Loadmaster can easily manage larger weights, effortlessly overcoming worksite barriers while maintaining load stability.

### **Effortless Lifting and Maneuvering**

The design of the Loadmaster wheelbarrow allows for easy lifting, even when fully loaded, while its broad, robust handles provide enhanced control and stability.
