

Site Shield - Rubber Surface Protection 1.5Mm (15M)

SKU: 6131-AM1015-1.5

Powerpac RubberGuard Surface Protection is an exceptionally durable, slip-resistant rubber sheet.

Powerpac's versatile RubberGuard sheeting is not only highly resilient but also offers outstanding value as it can be used multiple times, making it a cost-effective solution for safeguarding delicate floor surfaces.

Key Features:

- **Enhanced Slip Resistance:** The sheet is thoughtfully embossed, providing additional slip resistance for enhanced safety.
- **Waterproof:** Its waterproof nature ensures maximum protection against liquid spills or moisture damage.
- **High Strength:** This rubber sheet boasts remarkable strength, offering reliable defense against potential impacts or abrasions.
- **Easy Application:** The sheet conveniently rolls out for quick and hassle-free installation, saving time and effort.
- **Secure Joining:** For a seamless protective surface, it can be easily joined using Powerpacs Low Tack joining tape, ensuring a secure fit.

PRODUCT DESCRIPTION

Powerpacs RubberGuard Surface Protection is the ideal solution to preserve and shield sensitive floor areas without compromising on quality or sustainability.
