**SKU:** 6131-FS3012

1m Width

30m Length

3mm Thickness

Impregnated Plastic Membrane to create a water barrier

## PRODUCT DESCRIPTION

### THE PREMIER SHIELD FOR HARD SURFACES

To provide all-round protection for your floors and surfaces, this two-in-one solution combines tear resistance with soft foam cushioning.

#### Key Benefits:

- **Enhanced Traction Control:** Significantly reduces the risk of slips and falls on-site.
- **Moisture Barrier Technology:** Offers robust protection against water spills and dampness.
- **High-Impact Absorption:** Ensures delicate surfaces are shielded from potential damage caused by dropped tools or heavy foot traffic.
- **User-Friendly Application:** Designed for quick deployment and easy customization to fit various site layouts.

#### Optimal Applications:

Ensuring the safety and pristine condition of sensitive surfaces including granite, high-quality timber, tiles, laminate etc in active work zones.

#### Key Recommendations:

Due to anti-slip surface, Powerpac cloth tape is recommended for joining purposes.
