PRODUCT DESCRIPTION

Pile Cage Foot Heavy duty is designed to ensure correct concrete cover at the bottom of the Reinforcing Pile Cage.

Manufactured from 100% Recycled Polypropylene each Cage Foot can withstand 500kg dead weight. Each Foot is simply pushed over the End of a Rebar (12 to 40mm in Diameter) and will hold itself in place while the Pile Cage is lowered into place.

Guaranteed the life of the structure as long as the parts are sealed, Small bar cap multi-functioned as the capability to handle barrier mesh also.
