

Concrete Magnesium Float - 305Mm X 79Mm

SKU: 6191-8502

PRODUCT DESCRIPTION

Powerpac is a leading provider of high-quality concrete tools and equipment. Our range of magnesium and poly floats is designed to help concrete workers achieve a smooth and polished finish on their concrete surfaces. Magnesium floats are lightweight and easy to handle, making them ideal for smaller projects. Poly floats are a more affordable alternative that can be used for a variety of applications. Both types of floats are durable and long-lasting, ensuring a high-quality finish every time. Powerpac's range of magnesium and poly floats is a must-have for any concrete worker looking to achieve professional results.
