PRODUCT DESCRIPTION

The 48-inch Husqvarna CRT 48 ride-on trowel delivers great results with maximum productivity and is ideal to finish surfaces from 1,000 m² up to 1,900 m². The distinguishing feature is a superior steering system that is easy to operate and reduces operator fatigue. In addition, the rigid frame ensures excellent steering control. Combined with the ergonomic 2-lever controls it achieves optimum manoeuvrability.

- Used to finish newly cast concrete surfaces
- Electro-hydraulic joystick controls enables accurate maneuvering and virtually fatigue free operation
- Two controls modes to accommodates operator preference in varying conditions
- 93.8 in3 (1,537 cc) Kubota Liquid cooled, 4 cylinder engine
- 3,600 motor RPM, 2.5 gal (9.5 L) gas consumption per hour
