

Eibenstock Core Drill & Stand Kit

SKU: 6190-0373B000

Specifications:

- Watts: 3300W
- 450mm Dia Capacity
- Voltage: 230V
- Gear Box: 3 Speed
- Speed: 180 450 780
- Spindle: 1 1/4" M
- 620mm Stroke
- Weight: 35.8kg
- Drilling Cap Wet: 71-450mm

PRODUCT DESCRIPTION

USE:

- Wet drilling in reinforced concrete, natural stone and asphalt
- Drilling operations, civil engineering

FEATURES:

- Powerful 3300 W heavy-duty motor with high power reserves and a long lifetime

- Full aluminium housing – durable and resistant
- Electronic – soft start, over current cut-off, overload indication
- 3-speed oil bath gearbox – for optimal lubrication in all working positions due to the specially developed oil pump and optimal adjusted torque-speed-ratio for all diameters
- Mechanical safety clutch
- PUR-construction site cable – strong for heavy duty use
- Universal tool holder – fasten the motor to the drill rig without any tools
- Integrated levels on the carriage and scale on the drill rig – exact drilling
- Column swivel in three levels (75°/60°/45°)
- Steel column – robust, stable, buckling resistant
- Tooth rail separately exchangeable – easy to maintain
- Compact base with cut-out for quick action bracing unit
- Feed lever change without any tools – easy change of the working site
- Removeable wheel axle – easy transport
