

Eibenstock Long Reach Concrete Grinder

SKU: 6190-6231000

- Power input 1,200 W
- Rated voltage 230 V
- Rated speed 8,000 rpm
- Spindle connection Ø 22,2 mm
- Diameter 125 mm
- Weight 5.3 kg
- Model No: -ELS125D

PRODUCT DESCRIPTION

Use

- Grinding of screed seams
- Removing of burrs, bumps, paint and thin adhesives
- Smoothing of concrete and plaster surfaces
- Removing asbestos from hard surfaces

Features:

- Electronic - soft start, constant speed, temperature and over current cut-off
- Exchangeable flexible drive shaft – short design, can be changed easily, quickly and inexpensively by the user without opening the machine
- Robust joint for optimum adaptation to inclination angle
- Foldable front edge of dust guard - for grinding directly to the edge of the work area
- Brush rim - high suction power for dust-free working by connecting an industrial vacuum cleaner (accessory) to the 35 mm nozzle
- Additional handle – ergonomic handling, variably adjustable at the machine
