

## Tilt Slab Propping Anchor 16-24X130

**SKU:** MKT1624130

- Medium to high-load anchoring in cracked/non-cracked concrete
- Ideal for trusses, railings, machinery, scaffolding, consoles

### PRODUCT DESCRIPTION

#### Description

- ETA-approved Highload Anchor SZ: Robust through-fastening system
- Features plastic compression ring and three-part expansion sleeve
- Offers superior load-bearing with smaller spacings and edge distances
- Adjustable anchorage depth for enhanced shear load capacity
- Available in SZ-S (screw/washer), SZ-B (bolthead), SZ-SK (flush-surface mounting)
- Tested for shock resistance in Bern, Switzerland
- Approved for seismic actions C1 and C2 (M8-M24) and fire protection

#### Advantages

- High tension and shear load capabilities
- Variable anchorage depth for increased shear loads
- Models suitable for different surface finishes
- Disassembly leaves flush surface (cone and sleeve remain)
- ICC Evaluation Service listing in the USA
- Independently assessed for fixation in fibre-reinforced concrete
