

Rebar Bender/Cutter 4-25Mm

SKU: CRBC-25

25mm Dia Bend Capacity @ 650 N/mm²

240 v Power Supply

1050 watt motor

136 kg

180 deg bend capacity

supplied with 80mm/ 105mm Radius rollers

4mm - 25mm Cutting Capacity

Foot Pedal actuator

PRODUCT DESCRIPTION

- Industrial strength rebar bender/cutter combo unit bends and cuts up to 25mm rebar (500MPa)
- Bending capacity - 6-25mm rebar (500MPa) with a fast-bending speed - 2.5 seconds (90°)
- Cutting capacity - 4-25mm rebar (500MPa)
- Powerful single phase - 220-240V AC - 50Hz electric motor with bender power input - 1050W and cutter power input -1550W
- Controlled, accurate bending angle range of 0-180°
- Powerful hydraulics and efficient, accurate cuts and bends
- Comes with foot pedals and additional fixed bending pin diameters of 80mm/105mm (custom sizes may be purchased on request)
- Superior quality and performance
- Increases efficiency and safety on site
- Outstanding local support and national service agent network
- Maximise performance on site or in workshop environments
