

Nevosafe Rebar Safety Strip Capping 1.0M - Non-Steel

SKU: 104096

- 1m length
- Plastic Profile

PRODUCT DESCRIPTION

The unique rebar capping system complete with steel reinforcement is exclusive to Powerpac. In the past someone at a site would have to individually cap each exposed rebar. Yes the steel capped individual protection points are still available and are still relevant for certain jobs. But now employers can protect their employees in a much more efficient and effective fashion.

BENEFITS OF NEVOSAFE™ REBAR

- Reusable
- Highly visible colour
- Easy and quick to use
- Weather resistant plastic
- Secure and robust - 100kg from a height of 3m
- Secure and stable on all reinforcement diameters
- Can be applied in horizontal and vertical positions

STATEMENT OF THE EMPA TEST CERTIFICATE 460' 353/2 FROM 9TH MAY 2012

The NEVOSAFE™ safety strip has been developed for the use on building sites. It is clipped on to the protruding ends of reinforcement bars as a transition to further layers of concrete. These are essential to preventing a falling worker from being impaled on an exposed beam. The objective of the investigation was to test the effectiveness of the safety strip.
