

## Coconut Matting - 300Gsm - 2M X 50M

**SKU:** 6171-CCM300

Product Dimensions:

- Standard roll dimensions: 2m wide x 50m long
- Weight: 40kg per roll

Properties:

- Material: 100% mattress-grade coir
- Mass/unit area: Approx. 300 g/m<sup>2</sup>
- Thickness: 5mm
- Colours: Brown / Black

### PRODUCT DESCRIPTION

Biodegradable Erosamat Type 4K PP is ideal for immediate surface protection and erosion control until vegetation is established. It is made of 100% coir matting stitched together with photodegradable polymer mesh binding. It's essential to pin the Erosamat close to the underlying soil to get effective protection and germination.

100% biodegradable straw or coir matting mix

Applications:

- Erosion Control
- Surface Protection
- Slope Protection

Benefits:

- Lays easily even on steep slopes
- Retains soil moisture
- Insulates underlying soils
- Extends successful sowing period
- Cost-effective
