

Endo Air Hoist - Ehw-120 Cap, - Wire Rope Type 120Kg/1.9M Travelcap/

SKU: 400030

With a robust capacity range of 60kg to 120kg, the Endo Air Hoist - EHW-120 Cap is designed to deliver exceptional lifting performance. Featuring conveniently mounted up and down buttons and handle on the lower hook, this hoist ensures optimal stability while providing superior controllability, surpassing pendant-type hoists.

PRODUCT DESCRIPTION

Safety is paramount, which is why the Endo Air Hoist - EHW-120 Cap is equipped with a cutting-edge device that prevents reverse winding, enhancing operational safety. Additionally, the air motor automatically stops when the wire rope reaches a length of 1.9m, further safeguarding your lifting operations.

Experience unrivaled control and safety with the Endo Air Hoist - EHW-120 Cap, the ideal solution for lifting tasks that demand precision and reliability. Elevate your operations to new heights with Endo's renowned quality and performance.

Model	Rated load (kg)	Stroke (m)	Air pressure Mpa (kgf/cm ²)	Lifting speed (m/min)	Air consumption (m ³ /min)	Air inlet	Mass (kg)
