

Endo Air Hoist - Ehw-120R - Wire Rope Hoist 120Kg Cap/1.9M Lift

SKU: 400050

Combining robust lifting capabilities and advanced safety features, the Endo Air Hoist - EHW-120R Wire Rope Hoist provides a top-notch solution for your lifting needs. Its impressive capacity spans from 60kg to 120kg, ensuring versatile handling of diverse tasks. Simplified functions are key to this model, with a control button on the pendant switch enabling effortless operations.

PRODUCT DESCRIPTION

Ensuring safety remains a priority, the EHW-120R is integrated with a cutting-edge device designed to prevent reverse winding, ensuring seamless lifting procedures. Furthering its safety provision, the air motor instinctively halts when the wire rope extends to 1.9m, guaranteeing operational protection.

The Endo Air Hoist - EHW-120R Wire Rope Hoist is a clear exemplar of Endo's commitment to excellent performance and safety in lifting operations. Choose the EHW-120R for unparalleled reliability, precision, and peace of mind in your workspace.

Model	Rated load (kg)	Stroke (m)	Air pressure Mpa(kgf/cm ²)	Lifting speed (m/min)	Air consumption (m ³ /min)	Air inlet	Mass (kg)
