

Electric Screw Grout Pump 7 Kw

SKU: 1970-BMP55-7

12mm Aggregate Capacity

Capacity 6 – 50 ltr. / min

Max. pressure 30 bar

Conveying width 50 m

Voltage 400V/50 Hz 400V/50 Hz

Motor size: 4,0 KW

Weight approx.110 kg

Length 1400mm Width 570 mm Height: 880 mm

Available accessories:

Remote control cable 20 mtr long with rotation adjustment and on/off switch - Air hoses ½" or 3/8" - Mortar hoses dia 25 or 35 mm - Compressors 230V/50Hz or 400V/50Hz

Compressors 230V/50Hz or 400V/50Hz -Spray lances, mortar spray lances, spray lance extensions.

PRODUCT DESCRIPTION

Multi usable, very strong mortar pump for easiest handling. Available with 2 different three phase current motors including frequency converters are available three phase current motors including frequency converters are available. Depending on motor size a max. grain size of 6 or alternative 12 mm is possible. Easy to transport because the machine can be detached into 3 modules very easy. Steplessly adjustable speed – also usable with remote control. This pump was designed for pumping and spraying of pre-mixed, pumpable materials such as:
Fine plasters and renders, dampening plasters, self levelling mortars, fire proof mortars, waterproofing grouts, cementary mortars, joint mortars, decorative plasters, injection mortars, anchor mortars, interior and exterior plasters etc.
