

SIGNAGE CAPABILITY

POWERPAC SIGNS

Since 1976, Powerpac has proudly supported projects across New Zealand, beginning in a small warehouse in Elsdon, Porirua, and expanding nationwide. In 2020 we launched Powerpac Signs, which has since thrived, operating a busy signage division from our main Porirua warehouse.

Over the years, we've successfully designed, and printed countless projects across New Zealand, and we are confident in our ability to meet your exact requirements.

Our team takes pride in delivering both large and small-scale designs that align perfectly with your vision. Whether you have a clear idea or need help with signage, our team is here to make the process as easy as possible!

MESH BANNER

STANDARD

Product Description:

If your site layout changes frequently and you're worried about damaging full rolls of mesh when moving fencing, our Panel Banners offer the ideal solution. Available in a standard size of 1.8m x 2.4m, they can also be customised to fit your specific needs.

Made from premium PVC mesh, our banners are designed for maximum durability and flexibility, ensuring your brand makes a lasting impression. Easily attachable to individual panels, these banners allow you to reposition your fencing without compromising the quality of the mesh.

Installation:

Standard Mesh Banner is easy to install with plastic eyelets spaced every 500mm. Simply attach the banner to your fencing with cable ties.

Usage:

Using Mesh Banners on temporary fencing offers an affordable yet highly effective advertising solution. Perfect for construction sites, building enclosures, and scaffolding, these banners transform ordinary fencing into a powerful branding opportunity.

Features:

- 1.8m x 2.4m
- Hemmed and eyeleted
- Heavy-duty 200gsm rip-stop fabric
- We offer free proofing & design
- 5 – 10 day turnaround

MESH BANNER

FLAME-RETARDANT

Product Description:

If your site layout changes frequently and you're worried about damaging full rolls of mesh when moving fencing, our Panel Banners offer the ideal solution. Available in a standard size of 1.8m x 2.4m, they can also be customised to fit your specific needs.

Made from premium PVC mesh, our banners are designed for maximum durability and flexibility, ensuring your brand makes a lasting impression. Easily attachable to individual panels, these banners allow you to reposition your fencing effortlessly, without compromising the quality of the mesh.

Our flame-retardant option is ideal for construction sites and other environments where fire safety is a priority, offering both protection and compliance with safety regulations.

Installation:

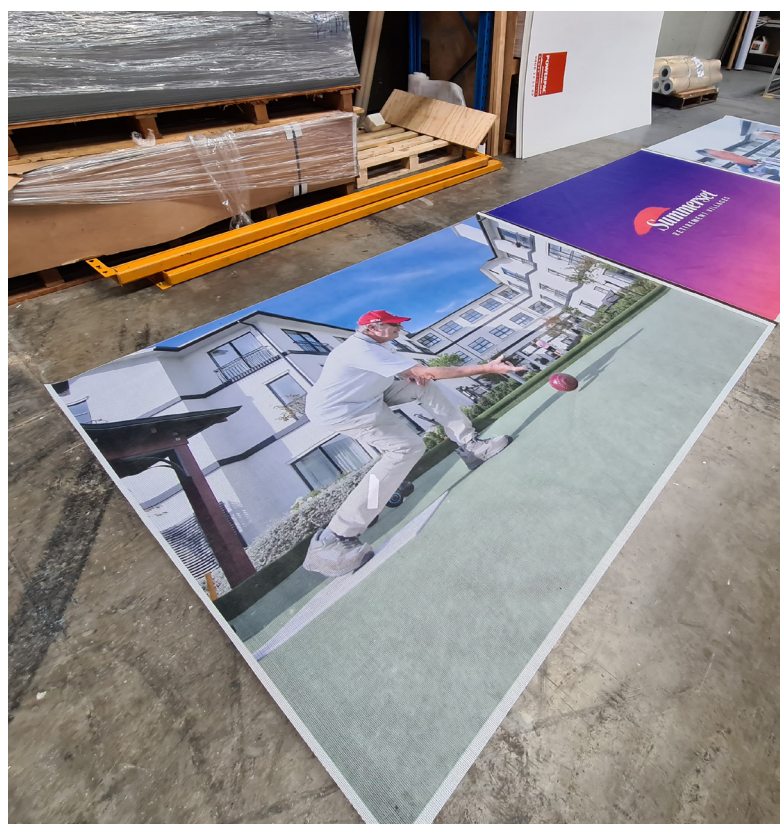

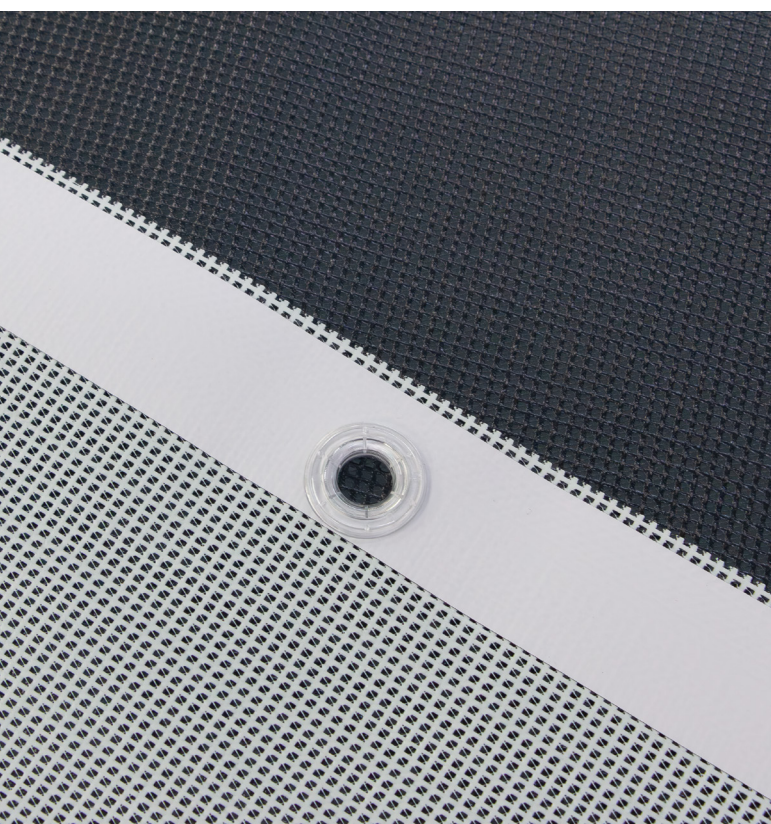

Standard Mesh Banner is easy to install with plastic eyelets spaced every 500mm. Simply attach the banner to your fencing with cable ties.

- Flame-retardant
- Hemmed and eyeleted
- Heavy-duty 200gsm rip-stop fabric
- We offer free proofing & design
- 5 – 10 day turnaround

FENCE BRANDING

STANDARD

Product Description:

Printed fence branding, also known as shade cloth or scrim, is a permeable material commonly used on construction sites for dust control and brand promotion.

Available in 1.2m, 1.6m, and 1.8m x 50m rolls, it offers a cost-effective solution for covering large areas of temporary fencing.

Our fence branding is printed with UV-stabilised inks, ensuring long-lasting, fade-resistant performance even in extreme weather conditions. The material's flexibility prevents tearing in strong winds, while its slight stretch factor ensures it remains in place.

Installation:

Standard Printed Fence Branding is easy to install with plastic eyelets spaced every 500mm. Simply attach the banner to your fencing with cable ties.

Usage:

Using Printed Fence Branding on temporary fencing offers an affordable yet highly effective advertising solution. Perfect for construction sites, building enclosures, and scaffolding, these banners transform ordinary fencing into a powerful branding opportunity.

Features:

- 1.2, 1.6m, 1.8m x 50m rolls
- Heavy-duty 240gsm rip-stop fabric
- Hemmed and eyeleted
- Up to 100% print area
- 5 – 10 day turnaround

PVC BANNER

STANDARD

Product Description:

PVC Banners are used to display branding, safety messages, and important information on site fencing and hoardings.

Made from durable 440gsm PVC material, our banners are designed to endure all weather conditions.

Each banner can be custom-cut to your specific size, with our largest roll being 50m. Each banner is hemmed and eyeleted (if needed), providing flexible installation options for any setting.

Installation:

Standard PVC Banners are easy to install using rope or bungee cords. Cable ties can also be used for fencing.

Usage:

Using PVC Banners on temporary fencing or hoarding structures offers an affordable yet highly effective advertising solution. Perfect for construction sites and scaffolding, these banners transform ordinary installations into powerful branding opportunities.

Features:

- 2.4m x 50m
- Weather-resistant
- Hemmed and eyeleted
- Heavy-duty 440gsm PVC material
- 5 – 10 day turnaround

CORFLUTE ACM PP SUBSTRATE

PRINTED SIGNS

Product Description:

Our corflute printed signs are perfect for a wide range of applications, from durable outdoor signage on construction sites and footpaths to indoor displays like point-of-sale signage.

Made from corrugated plastic, corflute offers a 12-month outdoor lifespan, combining affordability with exceptional quality. Easily customisable, corflute can be cut into virtually any size or shape, providing endless possibilities for creative signage. Plus, we offer double-sided printing to maximise your message's impact.

Installation:

Corflute offers versatile installation options due to its flexible design. It can be easily secured with nails or screws, and eyelets can be added to accommodate cable ties or rope.

Usage:

Corflute signs are extremely versatile and can be used for a wide range of applications, including construction signs, footpath signs, real estate signage, and event displays. Their adaptability in both size and shape makes them suitable for virtually any signage need.

Features:

- Multiple size options
- 3mm or 5mm thickness
- Easy installation
- Weather-resistant
- Lightweight & durable

ALUMINIUM TRAFFIC SIGNS

Product Description:

Our traffic signs can be used for road safety signage and directional signage for construction sites. With multiple mounting options, they can be easily installed for temporary use or as permanent fixtures.

Made from aluminium composite material, the signs are built to endure harsh weather conditions and have a lifespan of over 5 years. Fully customisable, they can be made to any shape, size, or text specification.

Installation:

Traffic signs can be easily installed using a signpost and bracket. Alternatively, posts can be mounted in concrete or secured with a socket sleeve and base plate.

Usage:

TTMC signs are typically used to regulate traffic, convey important information to drivers, and ensure road safety. TTMC signs in New Zealand follow specific shapes, colors, and symbols to convey different types of information to drivers, pedestrians, and other road users.

Features:

- Reflective
- Easy installation
- Weather-resistant
- Lightweight & durable

CUSTOM SIGNAGE

PERSONALISED SOLUTIONS

Product Description:

With the expertise of our design and manufacturing team, we can bring any sign you envision to life, including custom whiteboards, stencils, and sign mounting. We can also combine multiple signs and incorporate your company's logo and brand colours to create a unique sign tailored to your project.

Custom signs include site establishment signage, Vehicle management plan signs, sandwich boards, building signs, site-specific signs, teardrop flags, PPE requirement signs, and many more.

Installation:

Like most of our other signs, our custom signs are easy to install with nails or screws, and we can add holes for cable ties or rope if needed.

Usage:

With an extensive selection of custom signs, including sandwich boards, whiteboards, and VMP signs, we offer versatile solutions for any need. Whether you require "No Entry" signs, PPE reminders, or custom messages, our signs ensure your communication is clear and effective.

Features:

- Multiple size options
- Easy installation
- Weather-resistant
